WELCOME

I've taught Government to over 800 SS3 students in Lagos and Ibadan. I've watched brilliant students fail this subject because they memorized facts without understanding question patterns. I've also seen average students score A1 because they knew exactly what WAEC wants.

This book exists because most Government textbooks teach you everything except how to answer WAEC questions. You'll read about democracy for pages but never see how WAEC tests democratic principles. You'll memorize the 1999 Constitution but struggle when they ask you to "evaluate" or "analyze" constitutional provisions.

I've analyzed every Government paper from 2015 to 2025. The patterns are clear. WAEC asks the same types of questions in different ways. Once you recognize these patterns and practice with real past questions, Government becomes predictable.

This is not another textbook. You won't find lengthy chapters on political history. Instead, you get the exact question formats WAEC uses, the specific constitutional articles they love testing, and step-by-step solutions that show you how to think like an examiner.

READ THIS FIRST

WAEC Government rewards understanding over memorization. If you can explain WHY the 1999 Constitution created three arms of government, you'll score higher than someone who just lists the arms. This book teaches you the "why" behind every answer.
